

**COMPUTING SCIENCE STUDENT SOCIETY  
EXECUTIVE MEETING  
MINUTES**

**OCT 1, 1993**

**1. No More BBQ**

No food selling is allowed in the school area, not even for donation purpose. The union contract for exclusive food selling will last up to year 1997. Any food selling without their agreement is against law, and we can do nothing about it.

**2. Activities**

Try to set up volley ball tournament at Nov 14th, 5:00pm-10:00pm.  
Other ideas: paint-ball, Phantom of Opera and ski trip.

**3. Phone**

We need to pay \$30/month. Try to find out whether we get hit or every student society that have phone have to pay.

Suggestion: Upgrade to a business line and use one channel for modem.

**4. Carpet**

Work order for carpet cleaning has be given. Wait to be cleaned.  
We plan to fix the book shelf and not to buy a new one.

**5. Photocopier**

Toners are suppose to be delivered directly to us. Currently, we get toners from the general office, which means they have to pay for our toners first. We want to have a direct relationship with the toner supplier, so that our accounting will be clean.

## **6. Pop Storing Cabinet**

The lock to the cabinet for storing pops is extremely unsecured. Any small key can open it. We need to replace it.

## **7. 1st-2nd Year Students**

Find some activities to attract them, say a Social in Friday night.

## **8. General Meeting**

Plan to have one on two weeks from now.
