Grant Yee
David Wong

## 1. CSSS Scholarship

a. MOTION:

Scholarship will be given to student twice a year, in the Fall and Spring semester.
List of candidate names will be given to Arthur L. Liestman (Director of Faculty of
Computing Science), who will evaluate and nominate the one student to accept
the award.

Requirements: 1. An undergraduate computing student
2. An active member in Student Society, in particular CSSS
3. GPA >2.6

M/S/P

b. MOTION:

Allow CSSS executives to put slight changes to the content of scholarship, if required.

M/S/P

## 2. Computing Service Fees

The school has proposed to charge students for their use of computing services, due to the annual loss of $35,000 last year. The school would like to cut its budget on computing service by 3% next year.

The proposed services charge are as follows:

A. <u>For Communication time</u>:

1. 1 penny / min for modem dial-in with 2400 baud.
2. $1^1/2$ penny / min for modem dial-in with 9600 baud.

B. <u>For Disk storage</u>:

Each student will continue to get their account but will only get 500k free disk storage. Any additional memory use will be charged 15c / Meg / Month.

<u>Accounting policy</u>:

1. You can login only if your account has money in it.
2. No deficit is allowed.
3. No refund if you left school.
4. Everyone have to pay including staffs and professors, except they have a 5min free connection time for every login for checking E-mail.

We don't yet know when will this policy be effective.

Information from our guest, Lionel Tolan (head of Academic Computing Services). Thanks for his time!

**Meeting Adjourned.**
